

“HIGH FLASH GEL”

High Flash GEL is designed to quickly emulsify and break down bitumen, tar and asphaltes. A specialty formulated gel designed to cling on vertical surfaces, creating extended contact time. With a flashpoint of over 80°C it is a very safe alternative to many volatile solvents.

Applications: Down hole applications, oil rigs, heavy haulers and anywhere bitumen and asphaltes are encountered.

Directions / Dilutions: For general cleaning and heavy build up use as is.

Laboratory Analysis:

Appearance:	Pale yellow to pale brown liquid
Odour:	Citrus
Corrosion:	Non corrosive
Flammability:	Combustible liquid
Solubility:	Excellent

Packaging: 1,000 litre totes
205 litre drums
20 litre pails

For further information consult the material safety data sheet and label.
