

Chemfax Acid Foamer

This is a highly versatile, adjustable acid foaming system that delivers a range of chemical dilutions which is designed for the use with Chemfax's acid chemicals. It also offers adjustable control of foam consistency ranging from a wet clinging foam (best) to a dry foam. The fan nozzle creates a wide pattern for covering surfaces fast.

Comes complete with lockable, heavy duty box, 50 feet of 5/8" industrial hose, wand with fan tip end and hose hanger.

**ONLY Chemfax chemicals
are approved to be used in this equipment**
